Managing Agent Professional Indemnity

Helping to protect your business

Our professional indemnity (PI) cover helps to protect your business from potential financial catastrophe, offering you peace of mind.

What are the benefits of managing agents?

The policy is specific to the work carried out by managing agents. For example, managing agents may not conduct surveys themselves, and yet some PI policies automatically charge for this in the cover. At Gallagher, we believe companies should not pay for cover they don't need. Although, if required, surveys can be included as an additional option.

We offer a range of cover options from a panel of providers.

Key features of a professional indemnity insurance policy*

Additional options are available to tailor the cover to your needs

Office contents

Whether you work from a home office or on separate premises, protect your business equipment, such as computers, office furniture, and documents, from risks such as theft, fire, and water damage, even if the contents are temporarily away from the workplace.

Office buildings

If you own the building your office is located in, we offer cover for standard risks, such as storms, floods, and fire, as well as accidental damage.

Motor and fleet

As part of Gallagher, we can offer cover for individual vehicles and motor fleets, all under one policy.

Commercial directors' & officers' liability

By becoming a director of the company that manages a block of flats, you could be exposing yourself to financial risk. We can provide policies to directors and officers of companies that offer property management services.
